

Squaw Butte Back Country Horseman

Proposal #1

Pack Support Informative Video

Background: After a discussion with ITA and SBFCF executive directors, a idea was thrown our direction in creating a short Pack Support Video on how to prepare and what to expect. ITA wrote an informative letter covering maximum loads etc. for pack support to give their trail crews an idea. However, ITA and SBFCF thought a BCHI video showing how and why we pack would be great for them to send to their volunteers to better prepare them for our support. Examples would be kitchenware, food, etc to give them a better understanding of what pack animals can and shouldn't carry.

Squaw Butte could video, edit, and provide this video. However, we feel this should be a state level BCHI initiative and should represent all of our chapters.
