In honor of Earth Day, Idaho Conservation Corps is hosting a volunteer event on Saturday, Apr. 25th, from 9 am to noon, installing cages around trees along the Boise River to prevent beaver damage and picking up trash in the park.

Help protect this important riparian habitat and our only native stand of trees in the City of Trees!

All are welcome—alumni, future participants, interested parties, or anyone who would like to spend a few hours giving back along the beautiful Boise River.

And make sure to join us for a family-friendly celebration starting at 4 pm at Mother Earth Brewing.
